

Billy E
Bodybuilder

Our Billy boy has already performed well in two bodybuilding shows, coming second and third. Do we think he has what it takes to come first next time? YES! He says he is most proud of his arms, which measure in at an incredible 20 inches. In addition to training in the gym, where he likes to shock his muscles by changing his training routine every couple of months, he plays football three times a week to keep his cardio fitness in check as well.
