

**Arran M**  
Fitness Model

Our Arran is our youngest fitness model at just 17 years old. Despite his young age, we predict big things from him and are proud to represent him. Furthermore, what he lacks in years, he makes up for in determination – he is already thinking ahead to taking to the stage to compete in physique and bodybuilding shows. In addition to studying and holding down a part-time job, Arran manages to train hard in the gym five days a week. This combination of commitment, drive, determination – and an amazing body of course – makes him an ideal Ripped Model.
