

Harlan B
Fitness model

Our Harlan is a young model who started his fitness journey early on at the young age of 14. He enjoys functional, everyday athletic training, especially those activities that makes him feel strong in everyday movement. In addition to spending lots of time in the gym, Harlan enjoys getting out and about in the fresh air, going on long walks and remaining active in ways that naturally challenges his body. Ripped Models has been following Harlan's fitness journey closely, and we are proud to have him on board as a solid, all-round fitness model.
